

# **Santa Fe** – Jay Memory

The air thick and heavy  
With dusty and every Cat knew  
I was with you  
The last of the hot western waves  
Of the sun danced around you  
Like only they do.....Well....

*I was under*  
*I was under*  
*I was under – your spell (X2)*  
*Fe – Santa Fe*  
*Fe – Santa Fe*

Senioritas in bangles  
Were spinning for angles  
On road weary Gringos like me  
(Could) Imagine the stars falling  
Down on the street like the glitter  
On tile 'neath our feet

*I was under*  
*I was under*  
*I was under – your spell (X2)*  
*Fe – Santa Fe*  
*Fe – Santa Fe*

I could never re-live  
the one Gift that you give  
Yet, I still have you in my mind's eye  
Could dream in an instance,  
Your Charm and persistence  
(But) the lure that you laid was a lie

The air thick and heavy  
With dusty and every Cat knew – I was with you.
